PERFECTO PERCUSSION HAMMERS

Unless otherwise stated, Perfecto Percussion and Neurological hammers are made from stainless steel. This gives the instrument a much more balanced feel and helps prolong its working life.

We are fully aware of the potential reaction that some people can have by experiencing even the slightest contact with latex – which in extreme cases can result in anaphylactic shock. It is for this reason that all the materials used in the heads or tubing on our instruments is latex free.

STETHOSCOPES

The Perfecto Range of Stethoscopes includes the original Pinard Fetal model. This type of stethoscope was the first ever to be designed in 1816 by Doctor Rene Laennec. It has been changed from the original 2ft long hollow tube format to the lightweight models that are still in high demand today. Our modern day stethoscopes cover a very wide range of medical demands and incorporate special design features to help medical staff carry out examinations.

All Perfecto Stethoscopes are supplied with latex free materials and are precision made to give high quality performance every time. Provided the Care and Maintenance Instructions are followed the Perfecto Stethoscopes will give years of trouble free service.

- Medium Type Bell for Narrow Section Examination – Rib & Small Places
- Infant Type Bell for Infants Low or Medium Timbre Heart Sounds
SPHYGMOMANOMETERS

PERFECTO MERCURY SPHYGMOMANOMETERS

Many Medical Experts regard the GOLD STANDARD for accurate blood pressure as being the mercury sphygmomanometer. In certain medical conditions it is essential that no false variations in the recording of blood pressure readings are shown by the monitoring equipment. When used by trained staff (and correctly calibrated) mercury sphygmomanometers will give accurate readings of the patient’s blood pressure at the time of examination.

This is just one of the many reasons for the high demand for the Perfecto Range of Mercury Sphygmomanometers

PERFECTO MERCURY SPHYGMOMANOMETER

LED EXAMINATION LAMPS

WALL MOUNTED – FIXED DIAMETER LIGHT SPOT
Pure High Power White Light To Help With Diagnosis & Treatment
Flexible Arm For Illuminating Examination Area
Light Spot Diameter 155mm At 500mm
LED Lamp Giving Cold Light Source With No Patient Discomfort
Specially Designed Optical System Giving Clear & Even Light
Special Digital Light Brightness Control System
High Quality & Adjustable Light Spot
Energy Saving Compared To Traditional Halogen Lamps
Pressure Proof LED Lamp Is Not Easily Broken
Designed To Give 50,000 Hours Of Service
High Definition Light Spot Without Shadows
LED Is Free From Infrared, Ultraviolet Or Other Radiation Ingredients

WALL MOUNTED - ADJUSTABLE LIGHT SPOT
Pure High Power White Light To Help With Diagnosis & Treatment
Flexible Arm For Illuminating Examination Area
Light Spot Diameter Adjustable From 120mm to 300mm At 500mm
LED Lamp Giving Cold Light Source With No Patient Discomfort
Specially Designed Optical System Giving Clear & Even Light
Special Digital Light Brightness Control System
High Quality & Adjustable Light Spot
Energy Saving Compared To Traditional Halogen Lamps
Pressure Proof LED Lamp Is Not Easily Broken
Designed To Give 50,000 Hours Of Service
High Definition Light Spot Without Shadows
LED Is Free From Infrared, Ultraviolet Or Other Radiation Ingredients

MOBILE – FIXED DIAMETER LIGHT SPOT

PERFECTO PRO LED OPHTHALMOSCOPE DESKTOP MODEL | ASUK-7001-1057
PERFECTO PRO OPHTHALMOSCOPE WALL-MOUNTED MODEL

FEATURES
- Excellent Optical Performance
- Continuous Adjustable Brightness
- Easy to Observe the Erect Fundus Image
- High Quality Halogen Lamp Provides Good Colour Rendering
- Even Light Spot and Sharp Image
- Extremely Lightweight
- Soft Start with Automatic Turn Off Giving Extended Lamp Life
- Simple Adjustment for Lamp Brightness
- Soft Rubber Eyebrow Rest
- Easy to Clean
- Illumination Form: Large Spot, Small Spot, Slit, Net & Red Free
- Diopter Compensation: 0, 1, 2, 3, 4, 5, 6, 8, 10, 12, 16, 20, 25, 35D
- Illumination Source: 3.5V/2.8W Halogen Lamp
- Input Voltage Available to Meet Local Requirements
- Can Be Supplied with Either Standard 3 Pin or 2 Pin Plug
- Quick and Simple Installation

PERFECTO PRO OPHTHALMOSCOPE WALL-MOUNTED MODEL | ASUK-7001-1060

PERFECTO PRO FIBRE OPTIC OTOSCOPE WALL MOUNTED UNIT

FEATURES
- Fibre Optic High Quality Light
- Maximum Unobstructed View Through Speculum
- Minimum Reflected Light
- Adjustable Light Illumination
- Magnifying Lens Easily Opened of Closed to Suit the Chosen Procedure
- Fixed Speculum Opening of 4.2mm
- Disposable Speculum Starter Pack 50 x 2,7mm, 50 x 4.0mm
- Tympanic Membrane Test Conducted through Inbuilt Pneumatic Valve
- Easy to Clean
- Illumination Source: 3.5V/2.8W Halogen Lamp
- Input Voltage Available to Meet Local Requirements
- Quick & Simple Installation

Description | Code
---|---
PERFECTO PRO FIBRE OPTIC OTOSCOPE WALL MOUNTED | ASUK-7001-1064

PERFECTO PRO FIBRE OPTIC OTOSCOPE AND OPHTHALMOSCOPE COMBI WALL MOUNTED UNIT

FEATURES
- Combining Both Heads from ASUK-1060 & ASUK-7001-1064
- Quick and Simple to Change Heads
- Disposable Speculum Starter Pack 50 x 2,7mm, 50 x 4.0mm

Description | Code

PERFECTO PRO FIBRE OPTIC OTOSCOPE AND OPHTHALMOSCOPE COMBI WALL MOUNTED UNIT | ASUK-7001-1065
## PERFECTO PRO STREAK RETINOSCOPE

### FEATURES
- Filament Can Be Rotated 360°
- Filament Can Be Moved Upwards and Downwards
- Light Can Be Converged, Radiated and Paralleled
- Quick and Precise Measuring of the Astigmatism Axis
- Continuous Adjustable Brightness
- Working Distance: 0.67m
- Streak: 3mm-20mm
- Streak Rotation: 360° (use symbol)
- Convenient Quick Recharging
- Fully Portable and Convenient for Mobile Inspections
- Supplied with Special Base Charger to Prevent Over Recharging
- Anti-Re-Charging and Anti Discharging Function Protects the Battery
- Supplied with Re-Chargeable Battery
- Illumination Source: 3.5V/2.8W Halogen Lamp
- Input Voltage Available to Meet Local Requirements
- Can Be Supplied with Either Standard 3 Pin or 2 Pin Plug

PERFECTO PRO
DUAL-POWER SOURCE
FIBRE OPTIC OTOSCOPE

FEATURES

• Handle Designed for use Either as Re-chargeable or With Batteries
• Stylish & Lightweight Design
• Fibre Optic High Quality Light
• Maximum Unobstructed View Through Speculum
• Minimum Reflected Light
• Adjustable Light Illumination of the Area Being Focused On.
• Magnifying Lens Easily Opened or Closed to Suit the Chosen Procedure.
• Fixed Speculum Opening of 4.2mm
• Disposable Speculum Starter Pack 50 x 2.7mm 50 x 4.0mm
• Tympanic Membrane Test Conducted through Inbuilt Pneumatic Valve
• Easy to Clean
• Fully Portable and Convenient for Mobile Inspections
• Supplied with Special Base Charger to Prevent Over Recharging
• Anti-Re-Charging and Anti Discharging Function Protects the Battery
• Supplied with Re-Chargeable Battery
• Supplied with Alternative Base Cap for Use if Converting to Normal Battery
• Illumination Source: 3.5V/2.8W Halogen Lamp
• Input Voltage Available to Meet Local Requirements
• Can be Supplied with Either Standard 3 Pin or 2 Pin Plug
• Power Options: Re-Chargeable Li Battery or 2 x C Type Battery
• Aluminium Carry Case

PERFECTO WALL-MOUNTED DIAGNOSTIC STATION

SYSTEM FEATURES

• Designed for The Busy Professional of Today
• Streamlined Design to Suit any Hospital or Clinic
• Quick, Easy and Ready to Use Quality Diagnostic Instruments
• Automatic Light On when Either Handle is Removed from its Holder
• Stylish Lightweight handles with Simple Control Over Light Intensity
• Energy Saving Automatic Light Off when Handle is Returned to its Holder
• Simple to Clean and Maintain its Hygienic Qualities.
• System can be Expanded By the Addition of other Diagnostic Instruments after Initial Installation.
• Rated Voltage: AC220V – 240V 50/60HZ
• Input Power: < 6VA
• Conforms to Safety Standard IEC 601-101

OTOSCOPE FEATURES

• Stylish Lightweight Design giving High Quality Performance
• Fibre Optic Pure White Light Designed to Maximum Unobstructed View Through Speculum
• Minimum Non Reflective Light Designed to Give Maximum Illumination of the Area Being Focused On
• Magnifying Lens easily Opened or Closed
• Fixed Speculum opening of 4.2mm
• Disposable speculum 2.7mm: 4mm
• Tympanic membrane test conducted through inbuilt pneumatic valve.
• Lamp changes are very easy and quick – no tools required.

OPHTHALMOSCOPE FEATURES

• Lightweight and Easy to Use Controls to Switch Between the Various Diagnostic Options Available
• 28 different dioptre lens ranging from 0D to +40D
• Micro Diaphragm - for rapidly going through a pupil without dilation
• Small Diaphragm - for pupil without dilation or small pupil to observe eye ground
• Large Diaphragm - for examination of dilated pupil and can obtain wide vision
• Graticule (grid) for accurate measurement of pathological change, location or focus size
• Cobalt Blue can detect a number of not easily found diseases.
• Stenopaic Piece for precise observation of eyeground changes and measuring pathological changes
• Cross-linear polarizer/ red free light filter knob when used can make it easier to observe minor changes of blood vessels, small retinal haemorrhage, blur exudation and concealed changes in the macula
• Filter free setting cuts off the special filter when selected.

PERFECTO DIAGNOSTIC WALL UNIT
Wall- Mounted Unit with Otoscope and Ophthalmoscope

Code ASUK-7001-1066

PERFECTO DIAGNOSTIC & DISPENSOR WALL UNIT
Wall- Mounted Otoscope & Ophthalmoscope with Disposable Aural Speculum Dispenser

Code ASUK-7001-1067

PERFECTO PLUS DIAGNOSTIC WALL UNIT
Wall - Mounted Otoscope, Ophthalmoscope & Disposable Aural Speculum Dispenser plus Digital Thermometer

Code ASUK-7001-1068

PERFECTO DIAGNOSTIC & BP WALL UNIT
Wall- Mounted Otoscope, Ophthalmoscope & Disposable Aural Speculum Dispenser with Sphygmomanometer

Code ASUK-7001-1069

PERFECTO DIAGNOSTIC COMPLETE WALL UNIT
Wall- Mounted Otoscope, Ophthalmoscope, Disposable Aural Speculum Dispenser Digital Thermometer and Sphygmomanometer

Code ASUK-7001-1070
BINOCULAR INDIRECT OPHTHALMOSCOPE

ASUK-7001-1063

FEATURES

Advanced Optical Design Avoids Glistening & Provides the Broad Field
Super-light One Piece Design
Comfortable To Wear
Adjustable Height & Width
+20D Aspheric Lens Providing Clear Image
Complete With Small Easy to Assemble & Dismantle Portable Teaching Tube
Complete With Two Types Of Sclera Compressor With Smooth Surface
Complete With Power Lead & Transformer
